

Membership application

Standard membership of Sveriges Ingenjörer requires a Master of Science or a Bachelor of Science degree in Engineering, (minimum 180 credits*). A Master of Science or Bachelor of Science degree in Technology is also accepted as a qualification for membership. Membership is also open to students of technology who have completed at least 180 credits* towards a Master of Science degree in Engineering, and to other university graduates with a Bachelor level degree in another technical or natural science discipline or higher.

Student membership is open to all students studying for a degree with a designated major in the above disciplines. As soon as Sveriges Ingenjörer receives confirmation that a degree has been awarded, Student Membership is automatically updated to Standard Membership.

Method of payment. For Standard Membership, payment can easily be made monthly by standing order from a bank account. Fill in the full account number, including the bank's clearing number, in the space provided. Student and retired members pay once a year using the payment slip provided by Sveriges Ingenjörer.

Conditions for payment by standing order (Autogiro) - authorization

I hereby authorize Sveriges Ingenjörer, corporate identity number 802003-4586, to use the automatic payment service Autogiro to deduct my membership fee from the account I have indicated. The bank is not responsible for checking authorization or for notifying me in advance about each payment. Withdrawals will be noted on my bank statements. This authorization can be transferred to another account at the same or another bank if I so request.

I will ensure that there are sufficient funds in my account no later than one banking day before payment is due. I authorize the bank to transfer payment in accordance with the bank's rules for such transactions.

Payment may be made from my account on the due date or up to one week thereafter on condition that Sveriges Ingenjörer notifies me in advance of the amount, payment date and method of payment. This notification must occur the first time a payment is made and then in conjunction with any changes in the amount.

I understand that the bank must approve the use of my account for Autogiro payments, and that the bank and Sveriges Ingenjörer have the right to terminate my access to Autogiro.

Bankgirocentralen, BGC, manages the Autogiro process on behalf of the bank. I therefore give permission for information regarding my account number and account address to be registered and integrated with BGC's information.

This authorization is valid until further notice. It will terminate at the end of the calendar month in which I notify Sveriges Ingenjörer of cancellation. Alternatively, I can stop one or more transfers by contacting the bank no later than two banking days before payment is due.

*) Previously 120 university credits.

Please supply the correct education code from the list below. Education at a university outside Sweden or other Swedish qualifications must be specified in a separate attachment.

Education	Code
Fire engineering	8582
Master of Science in Engineering, automation technology/mechatronics	8149
Master of Science in Engineering, biotechnology/bioinformatics	8150
Master of Science in Engineering, computer engineering/technical computer science	8523
Master of Science in Engineering, design engineering	8151
Master of Science in Engineering, ecosystem technology	8581
Master of Science in Engineering, electrical engineering	8522
Master of Science in Engineering, energy technology/energy systems	8199
Master of Science in Engineering, aeronautical design	8152
Master of Science in Engineering, engineering economics	8156
Master of Science in Engineering, information & communication technology	8159
Master of Science in Engineering, chemical biology	8198
Master of Science in Engineering, chemical engineering	8160
Master of Science in Engineering, chemical engineering with physics	8197
Master of Science in Engineering, communications and transport	8161
Master of Science in Engineering, surveying	8162
Master of Science in Engineering, mechanical engineering	8163
Master of Science in Engineering, media technology	8167
Master of Science in Engineering, environmental technology	8168
Master of Science in Engineering, molecular biotechnology	8169
Master of Science in Engineering, space technology	8170
Master of Science in Engineering, urban and regional development technology	8171
Master of Science in Engineering, biological engineering	8172
Master of Science in Engineering, design technology	8521
Master of Science in Engineering, engineering physics	8175
Master of Science in Engineering, applied physics and electrical engineering	8176
Master of Science in Engineering, engineering mathematics	8196

Education	Code
Master of Science in Engineering, nanotechnology	8195
Master of Science in Engineering, engineering and environmental chemistry	8177
Master of Science in Engineering, wood technology	8178
Master of Science in Engineering, civil engineering	8180
Bachelor of Science in Engineering, automation technology/mechatronics	6268
Bachelor of Science in Engineering, energy and mineral resources engineering	6269
Bachelor of Science in Engineering, biotechnology	6270
Bachelor of Science in Engineering, building and civil engineering	6271
Bachelor of Science in Engineering, computer sciences	6274
Bachelor of Science in Engineering, design/graphic design	6276
Bachelor of Science in Engineering, process engineering	6277
Bachelor of Science in Engineering, engineering economics	6279
Bachelor of Science in Engineering, electrical engineering	6280
Bachelor of Science in Engineering, energy technology	6284
Bachelor of Science in Engineering, industrial engineering and management	6292
Bachelor of Science in Engineering, chemical engineering	6300
Bachelor of Science in Engineering, surveying	8194
Bachelor of Science in Engineering, mechanical engineering	6303
Bachelor of Science in Engineering, media technology	6306
Bachelor of Science in Engineering, environmental technology	6309
Bachelor of Science in Engineering, engineering physics	6317
Bachelor of Science in Engineering, telecommunications technology	6318
Bachelor of Science in Engineering, wood technology	6319
Bachelor of Science in Engineering, other	6602
Bachelor of Science in Technology	8193
Master of Science in Technology	8520
Master of Science in Material design and Engineering	8191

Please send your completed application to Sveriges Ingenjörer, Box 1419, 111 84 Stockholm

How to complete the AEA membership application

Personal details.

Write your name, personal ID number and current address.

1. Application for

Specify if the application is for membership or if you are transferring from a different unemployment insurance fund. If you have worked abroad, specify whether you are currently working in Sweden or if you are unemployed. Contact AEA Utland (Abroad) for further information.

2. Work conditions.

Are you or have you been employed? Specify which employer you work for or have worked for. Confirm your employment with a certificate. You can for instance provide a copy of a pay slip, a statement of income or a certificate of employment. **(NB. Not a contract of employment.)** Are you self employed? Specify the name of your company and corporate identification number. As self employed, you confirm your employment by signing the application form.

3. Signature.

For the application to be valid, you must date and sign the form.

Conditions for membership

To become a member, you must fulfil both the work requirement and the academic requirement. Membership is granted at the earliest from the first day of the month AEA receives your application. Membership cannot be granted retroactively.

Work requirement for membership

The work requirement is fulfilled if you work or have worked at some point.

Transfer

You may only be a member of one unemployment insurance fund at a time. If you transfer your membership you are entitled to include your former membership period on condition that the transfer is made without interruption to the membership period. You should therefore send your application immediately after leaving your former unemployment insurance fund.

Membership fee

For your membership to be valid, you must pay the membership fee.

Academic requirement

You fulfil the academic requirement if you are or have been a member of a SACO association, Vårdförbundet or AEA. As a member of Sveriges Ingenjörer you fulfil the academic requirement.

What is required in order to receive benefits if you become unemployed?

To be entitled to unemployment benefits should you become unemployed, you must

- **Be registered as unemployed**
- **Have worked long enough in order to fulfil the work requirement**
- **Have been a member long enough in order to fulfil the membership requirement**

Read more about these three requirements at www.aea.se./grundregler or call us at 08-412 33 00, switchboard.
